

Seminar on Key Points of Japanese-style Quality Management and Support for Entering the Japanese Market

Organized by JQA (Japan Quality Assurance Organization)

Supported by JETRO and FICCI

December 12th, 2024

Radisson Hotel, Udyog Vihar, Gurugram/ Online

14:00 - 17:30 (Networking dinner to be held post the event)

What is JQA?

JQA is Japan's largest third-party conformity assessment body with the highest number of registered management system certifications in Japan, including ISO 9001 and ISO 14001.

As a designated body for national and international regulations and certification schemes, JQA provides JIS Mark certification as well as testing and certification for the following

- electrical products
- medical devices
- in-vehicle equipments
- construction materials
- audit and evaluation of activities to achieve carbon neutrality
- supporting overseas business expansion

Purpose of the seminar

Tailored for Indian and Japanese manufacturing companies, the seminar aims to raise awareness and provide support to companies in India on the regulations and certifications required for exporting products from India to Japan

Why Attend?

Learn about Japan Market Access Service, including JIS Mark Certification, S-Mark and comprehend the strategies for accessing the Japanese market
