3rd Edition of

GatiShakti Summit

DRIVING **LOGISTICS** EFFICIENCY THROUGH **WAREHOUSING** AND **MULTIMODAL** CONNECTIVITY

19 March 2026 | New Delhi

About The Event:

The Federation of Indian Chambers of Commerce & Industry (FICCI) is organising the **3rd Edition of GatiShakti Summit** - ***Driving Logistics Efficiency through Warehousing and Multimodal Connectivity*** on Thursday, **19th March 2026** in **New Delhi.**

The summit will deliberate upon critical infrastructure upgrades, policy reforms and the creation of investment ready, modern warehousing. By prioritizing multimodal integration and last mile connectivity, the summit aims to synchronize industrial corridors with integrated infrastructure to drive peak logistics efficiency. It will bring together key stakeholders to collectively define a vision for the industry and chart the next phase of India's logistics transformation.

KEY OBJECTIVES

- Drive the next phase of PM GatiShakti and National Logistics Policy implementation through coordinated industry–government action
- Accelerate development of integrated, multimodal and investment-ready logistics networks
- Strengthen last-mile and intra-city logistics through cost-efficient, sustainable and express delivery models
- Promote scalable PPP models for multimodal infrastructure, MMLPs and FTWZs
- Enable data-driven, AI-enabled and platform-led logistics ecosystems
- Position warehousing and cold chain as future-ready national infrastructure with global standards and safety
- Address land, regulatory and skill bottlenecks to scale Grade-A warehousing and cold chain capacity
- Build resilient and flexible supply chains to manage disruptions and demand volatility
- Support commercially viable green logistics and cross-border collaboration, including BRICS connectivity

Who Should Attend

- CEOs, MDs, COOs and Business Heads from logistics, warehousing and supply chain companies
- Chief Supply Chain Officers and Heads of Logistics, Procurement and Operations
- Warehousing, cold chain and industrial park developers and operators
- Manufacturing leaders from FMCG, pharma, auto, electronics and textiles
- Retail, e-commerce and quick commerce supply chain leaders
- Infrastructure developers, EPC players and multimodal transport operators
- Air cargo, port, rail freight and inland waterways operators
- IT services firms and digital solution providers serving logistics and supply chains
- Heads of digital transformation, AI, automation, IoT and data analytics
- Global Capability Centres (GCCs) focused on logistics, mobility and operations
- Infrastructure investors, PE funds and financial institutions
- Sustainability, ESG and green mobility leaders
- Central and State Government officials and policymakers
- Multilateral agencies, industry bodies and standards organisations
