23rd September 2026

Hotel Shangri-La Eros, New Delhi

ABOUT

FICCI Innovation Summit conceived and curated by the FICCI National HR Committee has emerged as a leading platform for business and HR leaders to reimagine the future of work and foster culture of innovation. The Summit brings together senior leaders and practitioners from across industry to challenge conventional thinking, exchange perspectives and explore how organisations can embed innovation into their culture, leadership and ways of working.

The workplace is changing rapidly. The question is no longer whether organisations will transform, but whether they can build the mindset, culture and capabilities to continuously innovate and adapt. Themed "Shaping Tomorrow's Workplace: Where Innovation Meets Impact," the 7th edition will explore the forces reshaping organisations, work and talent-from AI-led transformation and human-AI collaboration to agile organisation design, innovation-led cultures, and inclusive talent strategies-with a focus on translating innovation into meaningful and measurable business impact.
