

**One day seminar on
"How to manage uninterrupted product/service delivery to your customers"
based upon**

**ISO 22301:2012 (FDIS) on Societal Security -
Business Continuity Management System (BCMS) - Requirements & ISO 31000:2009
Risk Management (RM)- Principles & Guidelines**

Jointly organized by FICCI Quality Forum and Intertek MOODY on May 3 2012 at Federation House 1, Tansen Marg, New Delhi

You should attend this programme if:

- Your customers and other stakeholders want uninterrupted service.
- In the past your business was disrupted due to:
 - Natural disasters (floods, earth quake, lightning etc.)
 - Other reasons (employee unrest, transport strike, strike calls by your or your neighbouring company employees etc.)
- You often loose man hours due to unsafe work practices or human rights issues.
- You have paid compensation to employees due to violation of health & safety issues.
- You have suffered loss of assets, human life at work place due to terrorism, robbery etc.
- You want your organization's reputation and brand image to be protected even in case of business disruptions.

International Standard on BCMS

A new international standard ISO 22301 on BCMS will be released by International Organization for Standardization (ISO) by second quarter of 2012

ISO 22301 is based on BS 25999, and like the second part of BS 25999, it details the requirements for BCMS. The standard will be auditable, thereby enabling organizations to demonstrate compliance by obtaining certification.

The benefits of an effective BCM programme

- ☑ Ability to proactively identify the impacts of an operational disruption;
- ☑ Preparedness for effective response to disruptions so as to minimize impact on the organization;
- ☑ Ability to manage uninsurable risks;
- ☑ Ability to demonstrate a credible response through a process of exercising;
- ☑ Ability to gain competitive advantage through demonstrated ability to maintain delivery.

Highlights of the Sessions

- Presentation by Mr. Vijay Magan on (BCMS) and (RM) and its implementation methodology.
- Experience sharing on BCMS and RM by speakers from Industry.
