and Industry (IC)*

Admiral RK Dhowan
PVSM, AVSM, YSM,
VSM, ADC (Retd), Chairman,
NMF & Former Chief
of the Naval Staff

* Invited

FICCI and the Indian Navy had convened a path-breaking industry-academia-DRDO-user international seminar addressing emerging technologies for naval applications in April 2016 in New Delhi. This seminar drew a lot of all-round interest and was a grand success. FICCI have since received great encouragement to continue this series and accordingly, the second edition of the International Seminar on "Building India's Future Navy: Technology Imperatives" will be held on May 31- June 1, 2017 at Taj Palace, New Delhi.

The seminar is in consonance with the vision of the Hon'ble Prime Minister's call for "Make in India" and "Skill India", and intends to

generate a roadmap towards building a strong defence industrial base in the country, with emphasis on co-development of futuristic technologies, products and equipment for the Indian and global markets. This year the focus of the seminar is on disruptive technologies, new scientific discoveries, and technological & operational doctrines that are transforming naval warfare. The discussions will help in understanding the constantly changing technological paradigm in the mid to long term, and to respond appropriately against emergency and security challenges.

Participants' Profile

Heads and senior executives from FOEMs

Senior officials from the Indian Navy

Professors from DRDO, IIT and other Academia

Senior Officials from MoD and other armed forces

Defence Attaches of key embassies

Leaders from the Indian Industry

Media

Session Themes

Inaugural Session
Plenary 1: IDDM - Potential Projects for the Indian Industry
Breakout Session 1: Modern Trends in Maritime Communications
Breakout Session 2: Cyber Space Operations and Information Warfare
Breakout Session 3: Shipborne Propulsion & Power Generation
Breakout Session 4: Missiles, Underwater and Directed Energy Weapons
Plenary 2: Make in India: Opportunities for Coastal States

Breakout Session 5: Surveillance and Detection Systems
Breakout Session 6: Transformation in Naval Aviation Sector
Breakout Session 7: Autonomous Vehicles
Breakout Session 8: Disruptive Technologies
Panel Discussion: Warship Building in India
Valedictory Session: Building India's Future Navy -Realising the Make in India Initiative

Association Opportunities

Exhibition

Coinciding with the seminar, a limited exhibition stalls on first-come, first-served basis is being organised to facilitate the demonstration of industrial capabilities and product range to key decision makers.

Sponsorship

Excellent sponsorship opportunities are available to showcase your brand.
