

**FICCI-CMSRS : Technical Training Programme Series –
1st E-Certified Training Programme
On**

**Pre-Startup Safety Review (PSSR), Occupational Health n Hygiene and
Industrial Safety : Re-Opening Up & New Norms Post Lockdowns**

Thursday, May 28, 2020; 3:00 P.M. – 5:30 P.M.

One **Must Pre-Register** for the Training programme by Clicking on the Link below
before May 28, 2020 till 2:00 p.m :

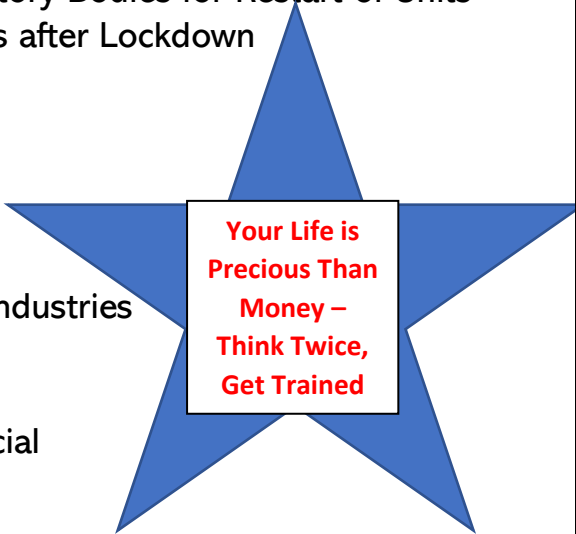

[Register for Programme and Get Your Webex Link n PassCode to Join Webinar](#)

The Webex Details to Join the Programme on May 28, 2020
will be shared after successful Registration and Payment
(A Unique Link n Passcode will be Provided Individually to Join the Programme)

Topics to be Covered During Training

- Risks During Startup/Shutdown of Process Plants
- Mandatory Requirement by MHA and Other Statutory Bodies for Restart of Units
- Guidelines for Restarting Manufacturing Industries after Lockdown
- HAZID / Pre Startup Safety Review (PSSR)
- Guidelines on PSSR
 - Process Plant
 - Manufacturing Facility
- Background of SARS-COV-2
- 6 key industrial factors on limiting COVID-19 in Industries
- Managing Emergency Scenarios.
- Returning back to work after COVID-19
- Personal Protective Equipment (PPEs), Masks, Social Distancing at Workplace

MAY, 28TH

**Your Life is
Precious Than
Money –
Think Twice,
Get Trained**

Who Should Attend or Be Nominated As Participant / Delegate :

- **Any Industry / Operations which were Closed during Lockdown and Opening Up Post Lockdowns.** Professionals from these industries – HR/Training/Admin-Heads Looking after Re-Opening of Offices/Industry Operations, Environment, Health and Safety (EHS)/ Occupational Health &

Hygiene Officers of Small, Medium & Large Industries, Safety Professionals, Plant-Heads, Plant-In-Charge, Floor Supervisors and Production Manager.

- **Participants Who Care About Themselves and Concerned About Their Health, Hygiene and Life. Delegates should be Nominated from Industries Across Board in General including** Chemical, Petrochemical, Oil and Gas, Pharmaceutical, Bulk Drug, Fertilizers, Pesticide, Power, Cement, Textiles, Metallurgy, Mining Industry in manufacturing, export/import, transportation and storage of hazardous chemicals (HAZCHEM), petroleum, petroleum products and gases.
- Also, Safety, Health & Environment Professionals in Isolated Storages, Ordinance Factories, Container Depots, Warehouses, Ports, Dockyards, Transporting Agencies (Rail, Road, Maritime), Industries having Pipeline Installations etc. Policy Makers and Regulatory Authorities.

Register Now For Upgrading Your Knowledge and Being Safe at Your Workplace, Office and Home with Your Family

REGISTRATION FEE DETAILS	Webinar Participation Fee (without GST)	Participation Fee for FICCI Non-Member Companies (with 18% GST)	Participation Fee with Discount for FICCI Members (with 18% GST)
One Delegate	2000	2360	2124
Two Delegates	3800	4484	4035
Three Delegates	5700	6726	6053
Four Delegates and Above	1900/- for Each Delegate	2242/- for Each Delegate	2017/-for each Delegate

Eminent Speakers

M Senthilraja is a Mechanical Engineer with Post Graduate Degree in Industrial Safety Engineering, is having versatile experience in Occupational Health and Safety. He is from CMSRS and has experience of over 21 yrs and areas exposed are Construction, Metallurgical, Power plant, Chemical and Oil industries. He is well experienced in developing and implementing Occupation health and safety Management system, conducting safety training. He has managed large projects with around 3000 employees and trained more than 5000 people in Occupational Health and Safety.

His Key Skills include :

- Process Safety Management
- Project HSE Review
- Pre startup safety review (PPSSR)
- Behaviour Based Safety (BBS)
- EHS Compliance
- Design of Fire Fighting Systems, Fire Safety Audits, Emergency Preparedness and Response
- Implementation of Safety Management Systems
- Incident Investigation

He is a Certified Lead Auditor in OHSAS by IRCA.

J John Peter Smiles, CIH, CSP is an ethical Certified Industrial Hygienist and Certified Safety Professional, is presently with CMSRS and has experience of over 24 yrs. He has gained experience from various industrial sectors such as Fertilizer, Chlor-Alkali, Solvent Recovery, Paper boards, Garments, Oil and Gas, Pharmaceuticals, Electronics and Specialty Chemicals. He is a Result-Oriented, Professional with a Proven Record of Achievement in Formulating & Implementing Loss Prevention Ideas that Create Value for an Organization.

- He has identified and evaluated sampling strategies for multiple contaminants, design, implementation of occupational hygiene programs, validating engineering controls for a sustainable business among various industries
- He has executed various Industrial Hygiene Programs in Australia, Japan, China, South Korea, Vietnam, Thailand, Indonesia, Singapore, Saudi Arabia.
- His strengths are in Chemical Exposure Recognition, Evaluation including Control, Safety Management System Implementation and Safety Training.

His Key Skills include :

- Industrial Hygiene Qualitative and Quantitative Assessment
- Industrial Hygiene Personal Air and Noise Sampling
- Health Risk Analysis
- Heat Stress and Strain evaluation and control
- Engineering Controls and Ventilation
- Industrial Hygiene Programs – Hearing Conservation, Respiratory Protection, Crystalline Silica
- EHS Management System
