

Interactive Webinar Impact & Implications of COVID19 on Agrochemicals Industry & Draft Order for Banning of 27 Molecules

Thursday, 11th June 2020
1500 Hrs to 1700 Hrs

sample

Impact of Global COVID-19 Outbreak on Indian Agrochemicals Industry

The COVID-19 outbreak has severely impacted the lives of individuals and the way governments and businesses operate. Each sector has been hit in one way or the other, be it international trade, manufacturing, in-bound and out-bound logistics, distribution of end product or decreased demand.

Some of the Key Discussion Points of Webinar are :

- Impact of COVID19 on Global and Indian Agrochemicals Industry
- Disruption in Supply Chain
- Draft Order for Banning 27 Molecules
- Pesticide Management Bill 2020
- Manufacturing of New Active ingredients

New Horizons for the Indian Agrochemicals Industry

- Targeting export oriented domestic production
- To prepare for manufacturing of generic molecules
- Import substitution
