Mr Amarjeet Singh
Whole Time Member, SEBI

Sessions

- ESG as an accelerator for business growth
- India Inc: Advancing the ESG Agenda through Innovative Strategies
- Future Forward: India's Green Economy and Beyond
- Fire Side Chat

About the Summit

India stands at a pivotal juncture in its journey towards sustainable growth, where environmental, social, and governance (ESG) principles are becoming integral to business frameworks. SEBI's commitment to fostering sustainability through Business Responsibility and Sustainability Reporting (BRSR) has played a significant role in making this possible.

As is evident from BRSR disclosures made by companies, they are increasingly incorporating ESG into their mission and values, endeavouring to fully integrate it into their

strategy and operations. This aligns disclosures of companies with global ESG benchmarks and also emphasizes the role of Indian businesses in advancing the broad agenda of sustainability and ESG beyond climate change. Furthermore, the potential of BRSR disclosures to channelise responsible investments is driving meaningful change across the industry.

Building on this momentum, FICCI is organising its much-anticipated **3rd edition of ESG Summit on Friday, 31st January 2025**
