

FINANCING INDIA'S SUSTAINABLE GROWTH

1030- 1600 Hrs- Wednesday, 9th March 2022

1000-1215 Hrs- Thursday, 10th March 2022

In order to meet India's sustainability targets for 2030, it is estimated that our sustainable funding requirements would cross \$ 2 trillion by 2030. This calls for new ways to consider financing and investing in ESG initiatives. SEBI's new mandatory disclosure regime, BRSR will strengthen ESG reporting and compliance over time and is a huge step towards standardized disclosures on ESG parameters. It is only a matter of time before ESG considerations become the threshold for investing. Against this backdrop, FICCI is launching its flagship Summit on ESG on 9-10 March 2022.

Inaugural Address

Mr Rajesh Verma, Secretary, Ministry of Corporate Affairs
