Promotion of Mukhyamantri Sikho-Kamao Yojana (MSKY)

About the Mukhyamantri Sikho-Kamao Yojana (MSKY)

Madhya Pradesh is among the top 5 states of India having over 52% of the total youth population of the country. Youth consists of 30% of the total population of the states in the country having a literacy rate of 70.63% (2021). Also, the working-age population is projected to be above 62% of the total state population until 2036. In order to enhance the employability of the youth and improve their socio-economic status is one of the key priorities for the State Government. With this vision, the Hon'ble Chief Minister of the State has announced "Mukhyamantri Sikho-Kamao Yojana (MSKY)". The scheme aims to facilitate the training of 1 lakh youth of the state in various sectors and job roles in the industry premise itself so that youth become job ready and familiar with the world of work.

Under the MSKY Scheme youth between the age group 18 - 29 years can be onboarded by Industry for On-the-Job training in their premise within Madhya Pradesh and other parts of the country. Trainees shall get a minimum stipend from the industry out of which the government will be paying 75% of the stipend. Though the industry is free to increase the stipend amount, government contribution will remain fixed as per the scheme. Post-training, trainees shall be awarded a State Council for Vocational Training (SCVT) Certificate by the Madhya Pradesh State Skill Development and Employment Generation Board (MPSSDEGB).

In order to sensitize the industry about the MSKY scheme the Government of Madhya Pradesh is organizing six roundtables in various industrial hubs of the country followed by a mega event in Madhya Pradesh in July. The objective of the roundtables is to identify potential industries which can onboard the trainees from the state and facilitate the training.
