The Awards, meticulously evaluated and judged by an eminent panel of jury, aim to recognise and celebrate the notable contributions made by corporates, institutions and individuals towards mitigating occupational road risks and making safer roads for India's future. The Awards have been categorised on the following bases:

1. Excellence in ENGINEERING
2. Excellence in ENFORCEMENT
3. Excellence in EDUCATION (Awareness)
4. Excellence in EMERGENCY CARE

The Symposium, this year, aims to host a range of activities, deliberations, and industry dialogues on safer infrastructure for roads in India, including risk mitigation, redesigning roads, critical role of innovation, startups and corporates, impact of tyre quality, first-response gaps, speed management, use of AI, and promoting ways for safe driving.
