12:25 PM – 12:30 PM	**Concluding Remarks and Vote of Thanks**: **Mr. Sumeet Gupta,** Deputy Secretary General, FICCI
Inauguration Concludes	

Panel Discussion: Cyber & Data Risks: Securing the Digital Frontier *Cyber risk has become a direct threat to operational continuity, financial performance, and organizational credibility. Rising ransomware attacks, data breaches, AI-driven phishing, and vulnerabilities across third-party ecosystems are disrupting critical services and exposing sensitive information. At the same time, growing reliance on digital infrastructure has increased the impact of human error and insider-related risks. This discussion is anchored in the need to view cyber risk as a leadership concern, with clear focus on resilience, accountability, and the ability to respond decisively to incidents that can affect core business functions and stakeholder confidence.* **Moderated by : Mr. Murali Rao, Cybersecurity Leader, EY India**	
12:30 PM – 01.30 PM	• Mr. Bipin Kumar, CIO, **Fortis Healthcare** • Dr. Aniruddha Roy, Member**,** FICCI Space & Geospatial Applications Committee and CTO**, Genesys International Corporation Ltd** • Mr. Gopal Chaubey, CISO, **Adani Enterprises Ltd.** • Mr. Pradeep Vasudevan, Associate Partner, Cyber Security Services, **IBM India & South Asia**
01:30 PM – 02:30 PM	**Lunch Break**
Panel Discussion: Impact of AI and Responsible AI *Artificial intelligence is increasingly embedded across business functions, bringing both operational gains and a new set of enterprise-level risks. The growing use of agentic AI systems, capable of acting with limited human input, heightens concerns around accountability, data quality, bias, explainability, and control. Risks such as hallucinations, deepfakes, shadow AI usage, model drift, and prompt manipulation are no longer hypothetical and can affect decision-making, compliance, and trust. This discussion is grounded in the need to view AI risk as a core business issue, requiring clear oversight, disciplined governance, and sustained vigilance as AI adoption scales.* **Moderated by : Mr. Srikanth Potturi, Partner, Risk Consulting, EY India**	
02:30 PM – 03:30 PM	• Mr. Keshri Asthana, CTO, **Microsoft India** • Ms. Piya Haldar, Chief Compliance Officer, **Honeywell India** • Mr. Munender Soperna, Group CDIO, **Dr Lal Path Labs**
Panel Discussion: Geopolitical Uncertainties and Supply Chain Resilience *Geopolitical uncertainty and operational disruption are increasingly intertwined, reshaping the global business environment. Trade restrictions, evolving strategic realignments, and a changing global order are affecting access to critical inputs, energy flows, and supply chains, while sudden policy shifts continue to alter market dynamics. At the same time, technology outages, physical events, and single-point dependencies have shown how quickly disruptions can cascade across interconnected operations. This discussion is set against a backdrop where resilience has become a strategic necessity, requiring leaders to account for geopolitical volatility, regulatory expectations, and operational fragility as part of everyday governance and decision-making.* **Moderated by : Ms. Maya Ramachandran, Partner and Risk Markets Leader, EY India**	
03:30 PM – 04:30 PM	• Dr. Pritam Banerjee, Head, **Centre for WTO Studies, Indian Institute Foreign Trade (IIFT)** • Mr. Madhukar Sinha, President - Govt. & Rural Business, **Tata AIG General Insurance Co. Ltd** • Mr. Alok Gupta, Group Executive VP & Global Business Head, **Jaquar & Company Private Limited**
04:30 PM	**Conference Concludes followed by Tea/Coffee**
