FICCI 100
100 YEARS OF BUILDING TOMORROW

3RD edition of LOGISTICS, WAREHOUSING & COLD CHAIN SUMMIT

Powering India's Logistics Through Smart Warehousing and Cold Chain Infrastructure

29th September 2026 | New Delhi

About the Event:

India's warehousing and cold chain sector has become a vital pillar of the logistics ecosystem, driving growth across manufacturing, agriculture, pharmaceuticals, retail, e-commerce, and exports. With rising demand for modern infrastructure and integrated supply chains, the sector is undergoing rapid transformation.

Despite strong progress, challenges such as fragmented infrastructure, land constraints, limited multimodal integration, inadequate cold chain penetration, and workforce skill gaps persist. Addressing connectivity gaps, digitization, sustainability, and investment in technology-enabled infrastructure will be key to enhancing competitiveness.

Against this backdrop, the **3rd Warehousing & Cold Chain Summit** will bring together policymakers, industry leaders, developers, service providers, technology firms, and investors to deliberate on policy priorities, infrastructure development, investment opportunities, and technology adoption for building future-ready logistics networks.

Key Discussion Areas:

- Scaling Grade A, Smart and Built-to-Suit Warehousing Infrastructure
- Strengthening Cold Chain Ecosystems for Food, Pharma, Retail and Exports
- e-NWR, Warehouse Standards and Warehouse Receipt Financing
- Digital Transformation through AI, IoT, Automation and Data-Driven Supply Chains
- Warehouse Design, Material Handling and Operational Excellence
- Public-Private Partnerships, Policy Reforms and Ease of Doing Business
- Sustainable Warehousing, Green Cold Chain and ESG Driven Infrastructure
- Integrated Warehousing and Cold Chain Networks for Manufacturing, Agriculture and E-Commerce
- Building Resilient, Efficient and Globally Competitive Logistics Ecosystems
- Technology Showcase & Strategic Business Partnerships Across the Warehousing & Cold Chain Value Chain

Why Partner with the Summit?

- Connect with senior policymakers and regulators
- Showcase innovative warehousing and cold chain solutions
- Engage with leading logistics and infrastructure companies
- Meet manufacturers, retailers, pharma and agri-business leaders
- Build strategic partnerships across the logistics ecosystem
- Generate new business and investment opportunities
- Strengthen brand visibility among key decision-makers
- Network with investors, banks, NBFCs and technology providers
- Demonstrate thought leadership in logistics innovation
- Position your brand in India's fast-growing warehousing sector

Business Sessions:

- **Future Ready Warehousing: Strengthening Policy, Infrastructure and Scale** Focus on enabling faster project execution, improving land and policy frameworks, and scaling Grade A and built-to-suit infrastructure across logistics corridors.
- **Strengthening Cold Chain Infrastructure: Integration, Technology & Reliability** Explore building reliable, end-to-end cold chain ecosystems to support pharma, food processing, and perishables, with emphasis on IoT, compliance, and operational efficiency.
- **Way Forward: From Capacity to Capability: Integrating Warehousing & Cold Chain for Next-Gen Supply Chains** Deliberate on transitioning from infrastructure-led growth to capability-driven supply chains, leveraging digitalisation, automation, sustainability, and resilience.
- **Technical Session: Innovations in Logistics, Warehousing & Cold Chain** A dedicated session to present innovative products, technologies, and solutions, offering insights into emerging innovations across the logistics and supply chain.

Why Attend & Exhibit

- Showcase technologies, services, and solutions to decision-makers across the logistics value chain
- Connect directly with senior leaders from manufacturing, retail, pharma, FMCG, agriculture, e-commerce, and government
- Engage in B2B matchmaking, explore partnerships, and expand business opportunities
- Build credibility and visibility among peers, investors, and global stakeholders
- Leverage networking zones to explore joint ventures and collaborations
- Tap into India's growing logistics presence in Tier 2 and Tier 3 cities

Who Should Attend

- Logistics providers (3PL/4PL, multimodal, temperature-controlled)
- Warehousing & cold chain developers, operators, and logistics park developers/operators
- Manufacturers and exporters (food, pharma, agri, retail, e-commerce)
- Technology providers (automation, AI, IoT, blockchain, WMS/TMS)
- Startups & innovation enablers
- Policymakers & government agencies
- Financial institutions, REITs & investors
- Academia & research bodies
- Cold chain tech & equipment providers
