- A. The requirement for the entity as specified in the above table under “Requirement” for all net short positions under the column “Excess Value” will be checked against,
- Portfolio value available in the DEMAT account with depositories, AND,
 - Value of any purchases for the which the PayOut has not taken place.

In case such underlying portfolio is not available, an additional deposit (i.e. twice the difference in margin on all actual Total Index Positions vis a vis margin if Total Index Positions are within limits) as specified in “3(iii) of Annexure A” of the Press Release will be payable by the entity. The same shall be retained by the Stock Exchange for a period of 3 months. Such additional deposit shall be accepted in Cash and FD (lien marked in favour of National Stock Exchange of India Limited).

- B. Similarly, the requirement for the entity as specified in the above table under “Requirement” for all net long positions under the column “Excess Value” for MF/ FPI, will be matched with value of

holding in Cash, Government Securities, T bills and Similar Instruments. The extant clearing corporation mechanism will be utilized to obtain the value of holding in Cash, Government Securities, T bills and Similar Instruments. In case such holding in Cash, Government Securities, T Bills, and similar Instruments is not available, an additional deposit (i.e. twice the difference in margin on all actual Total Index Positions vis a vis margin, if Total Index Positions are within limits) as specified in “3(iii) of Annexure A” of Press Release will be payable by the entity. The same shall be retained by the Stock Exchange for a period of 3 months. Such additional deposit shall be accepted in cash and FD (lien marked in favour of National Stock Exchange of India Limited).

As specified in “3(iv) of Annexure A” of Press Release, existing positions will be not be impacted i.e. the existing positions shall be permitted to be held till expiry or close out, whichever is earlier. However, if a fresh position is taken then the entire position including the grandfathered position shall be subjected to the above limits. E.g. if an entity is holding short futures of say 10,000 Qty worth Rs.510 crores, which is grandfathered, and the entity increases the short position to say 10,050 Qty, then the entire position, worth approx. Rs 510 crores, shall be subjected to the process followed for short position as mentioned above. Similar will be case for fresh position taken in long positions which are grandfathered.

Apart from the above, there is no further change in the extant monitoring methodology. The above framework will be applicable for a period of one-month w.e.f. March 23, 2020 for Institutions and Trading Members (Proprietary). For others the applicability of this framework will begin w.e.f. March 27, 2020.

Trading Members are requested to take note of the above and ensure that the regulatory intent conveyed through the Press Release No. PR No. 18/2020 by SEBI on March 20, 2020, are complied with.
