KARNATAKA RENEWABLE ENERGY DEVELOPMENT LIMITED

(A Government of Karnataka Undertaking)

Ref: KREDL/COVID-19/2020/1943

Date:30.03.2020

To
All Deputy Commissioners and
Superintends of Police,
All Districts of Karnataka.

Sub : Essential operation of Renewable Electricity Generating Stations/Projects
in the State-Reg.

Ref : 1. GoM order no. DMU/2020/CR.92/DisM-1 dated 25.03.2020,
Notification - COVID-19-Epidemic Diseases Act 1897— Revised
Lockdown Orders
2. D.O. Letter No 283/18/2020-GRID-SOLAR dated 26th March 2020
3. Karnataka Government Order No.HFW 54 CGM 2020 dated 23.03.2020 issued by
the Chief Secretary to the Government, GoK and Addendum No.HFW 54 CGM
2020 dated 23.03.2020

Respected Sir,

Karnataka Renewable Development Energy Limited (KREDL) is the nodal agency for implementation of Renewable Energy Projects in the State of Karnataka. **Renewable Energy Generating Stations (REGS) include Solar Power Plants, Wind Power Plants, Small Hydro Power Plants, Biomass/Biogas/Bagasse based Cogeneration Power Plants, etc.** These "REGS" generate Electricity and supply the same to grid even in situations when conventional power plants may be running at optimal levels due to logistic constraints w.r.t supply of fuels like coal, natural gas, diesel, etc. and operation of "REGSs" is critical for maintaining power supply across the country. Most of the Wind projects are located at remote locations in Chitradurga, Koppal, Gadag and Bijapur districts. Solar projects are spread across the state.

Generation of electricity is coming under essential service for the state and excluded as per the clause no 2-c & 6-n of above referred Revised Lockdown Orders dated 25" March, 2020 and also exempted as per the G.O issued by Government of Karnataka in the reference cited ref (3) Point (h) and (s). In order to provide uninterrupted operations of "REGS", the following support is requested from your office;

- Permission for "REGS" staff, associated workforce and vehicles to move around and movement of material and field engineers at "REGS" sites, substations, transmission lines and towers, etc. with minimum manpower.
- Allowing minimum staff, required to work for the "REGS" and offices for ensuring uninterrupted renewable power generation.
- Waiver from section 144, Nationwide Lockdown, Curfew, or any other limitation on number of people to gather in locations like "REGS" sites, substations, transmission lines and towers, etc. and other related locations where it may be required for operation and maintenance activities of renewable power generation and associated equipment.
- Availability of Batteries/Energy Storage Systems, Electrical Equipment, Maintenance Equipment, Tractors/Trucks and other required tools and Plants for maintenance activities.
- Allow round the clock permission to mobilize field staff to be able to reach and access electrical installations of "REGS".

Thanking you.

Yours faithfully,

(Dr. H.B. Budeppa)
